

Ideation Phase - Define the Problem Statements

Date: 24 June 2026

Project Name: Visualization Tools for Electric Vehicle Charge and Range Analysis

Problem Statement	Team (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An EV owner	Find nearby charging stations	The information is scattered	At the visualization platform	Confused while planning trips
PS-2	A researcher/policymaker	Analyze EV infrastructure	Raw data is difficult to interpret	There is no clear interactive tool	Inadequate to make quick decisions
